VOLUME 7, ISSUE NOS 1–4

Cell Biochemistry and Function

ISSUE No. 1 JANUARY 1989

Stimulatory Effect of 1,25-Dihydroxyvitamin D3 on the Glucose-6-Phosphate Dehydrogenase Activity in the MCF-7 Human Breast Cancer Cell Line, A. Noun, M. Garabedian and J.-D. Monet . . . 1

Glycolysis and Glutaminolysis in Perifused Ehrlich Ascites Tumour Cells, J. A. Segura, M. A. Medina, F. J. Alonso, F. Sanchez-Jimenez and I. Núñez de Castro 7

Fatty Acid Composition of Phospholipids in Mitochondria and Microsomes During Diethylnitrosamine Carcinogenesis in Rat Liver, R. A. Canuto, M. E. Biocca, G. Muzio and M. U. Dianzani . . . 11

Action of Endogenous Proteases on the Distribution of Tyrosinase Isozymes in Harding-Passey Mouse Melanoma, J. H. Martinez, F. Solano and J. A. Lozano 21

Intrarenal Localization of Angiotensin II Specific Binding in Rat Fetuses, B. Uva, P. Ghiani, A. Mandich and M. A. Masini 27

Atrial Natriuretic Peptide in Heart and Specific Binding in Organs from Fetal and Newborn Rats, R. M. Hersey, M. A. Nazir, K. D. Whitney, R. M. Klein, R. D. Sale, D. A. Hinton, J. Weisz and V. H. Gattone II. 35

Phosphate Transport Across the Basolateral Membrane of Chick Kidney Proximal Tubule Cells, S. Myint and P. J. Butterworth. 43

A Prostaglandin Oligomeric Derivative Inhibits Activities of Phospholipase and Protease: A Possible Mechanism of Membrane Protection during Ischemi, S. T. Ohnishi, M. Katsuoka and S. Hidaka. 51

Uptake of Alpha 2-Macroglobulin-Trypsin Complex by Human Placenta is Mediated by a Micovillous Membrane Receptor, B. M. Eaton, M. P. Oakey, S. R. Sooranna and S. F. Contractor 57

Inhibition of the Glycolytic Pathway by Methylglyoxal in Human Platelets, G. Leoncini, M. Maresca and E. Buzzi 65

Liposome-Nucleus Interactions. Flow Cytometric Study on the Role of the Nuclear Surface, E. Caramelli, S. Papa, A. M. Billi, M. Vitale, A. Bartoletti, L. Manzoli and S. Capitani 71

Book Reviews. 75

ISSUE No. 2 APRIL 1989

Cytochrome P450-Dependent Alkoxyphenoxazone Dealkylase Activity in Rat Alveolar Type II Cells: Effect of Pretreatment with β-Naphthoflavone, J. Rabovsky, D. J. Judy, N. A. Sapola, W. H. Pailes, M. McPeek and V. Castranova 79

Some Effects of Fructose-1,6-Diphosphate on Rat Myocardial Tissue Related to a Membrane-Stabilizing Action, L. Galzigna, V. Rizzoli, M. Bianchi, M. P. Rigobello and R. Scuri 91

Clofibrate Feeding Increases Cytoplasmic but not Mitochondrial Malic Enzyme Activity in Rat Kidney Cortex, M. Żelewski and J. Świerczyński 97

Prostaglandin Derivatives Inhibit the Growth of Malarial Parasites in Mice, S. T. Ohnishi, N. Ohnishi, Y. Oda and M. Katsuoka 105

Distribution of 3-Hydroxy-3-methylglutaryl-CoA Reductase in Isolated Villus and Crypt Cells of Chick Duodenum, Jejunum and Ileum, J. Iglesias, D. Gonzalez-Pacanowska, G. Caamaño and E. Garcia-Peregrin 111

Isolation and Characterization of Parenchymal Cells from Experimentally Induced Macronodular Rat Liver Cirrhosis, D. Müller, H. Franke, T. Zimmermann and R. Dargel 119

Methotrexate: Studies on Cellular Metabolism. II—Effects on Mitochondrial Oxidative Metabolism and Ion Transport, N. Yamamoto, L. C. V. Lopes, A. P. Campello and M. L. W. Klüppel 129

Methotrexate: Studies on Cellular Metabolism. III.—Effect on the Transplasma-Membrane Redox Activity and on Ferricyanide-Induced Proton Extrusion by HeLa Cells, Ma. B. M. Oliveira, A. P. Campello and M. L. W. Klüppel 135

A Polyclonal Antiserum Against the Rabbit Progesterone Receptor Recognizes the Human Receptor: Biochemical Characterization, P. D. Feil, C. L. Clarke and P. G. Satyaswaroop 139

A Polyclonal Antiserum Against the Rabbit Progesterone Receptor Recognizes the Human Receptor: Immunohistochemical Localization in Rabbit and Human Uterus, R. J. Zaino, P. D. Feil, C. L. Clarke, R. Mortel and P. G. Satyaswaroop 147

Book Reviews 153

Obituary 155

Announcements 156

ISSUE No. 3 JULY 1989

Effect of Orally-Administered Epidermal Growth Factor on Intestinal Iron Absorption and Mucosal Permeability, K. B. Raja, R. J. Simpson, H. Gregory and T. J. Peters 157

Brush Border Membrane Non-Esterified Fatty Acids. Physiological Levels and Significance for Mucosal Iron Uptake in Mouse Proximal Intestine, R. J. Simpson, S. Venkatesan and T. J. Peters . . . 165

Effect of Silybin Dihemisuccinate on the Ethanol Metabolizing Systems of the Rat Liver, A. Valenzuela, J. C. Bustamante, C. Videla and R. Guerra 173

Lindane-Induced Liver Oxidative Stress: Respiratory Alterations and the Effect of Desferrioxamine in the Isolated Perfused Rat Liver, L. A. Videla, K. Simizu, S. B. M. Barros and V. B. C. Junqueira 179

Protection Against Cadmium Toxicity and Enzyme Inhibition by Dithiothreitol, K. I. Ahammadsahib, R. R. Jinna and D. Desaiah 185

Microsomal Membrane Fluidity and Phosphatidylcholine Synthesis in Rabbit Lung Under High Oxygen Tension, C. Casals, L. Herrera, M. Gasset, P. Garcia-Barreno and A. M. Municio 193

Dual Inhibitory Effect of Bredinin, T. Kusumi, M. Tsuda, T. Katsunuma and M. Yamamura . . . 201

Chromatin Organization in Rat Testis Nuclei. Flow Cytometric Detection of the Morphological Compaction, S. Papa, M. Vitale, R. Rizzoli, N. Zini, A. Matteucci, T. Cecchini and N. M. Maraldi 205

Effect of Sodium Arsenite on the Induction and Turnover of Ornithine Decarboxylase Activity in Erythroleukemia Cells, F. Flamigni, S. Marmiroli, C. M. Caldarera and C. Guarnieri 213

Blocking of Human T Lymphocyte Activation by Channel Antagonists, M. R. Bono, V. Simon and M. S. Rosemblatt 219

The Mechanism of Placental Alkaline Phosphatase Induction In Vitro, S. Nozawa, S. Narisawa, R. Izuka, T. Fukasawa, T. Kohji, P. K. Nakane, K. Hirano and J. L. Millan 227

Book Reviews. 233

ISSUE No. 4 OCTOBER 1989

Protein Metabolism in the Small Intestine of the Ethanol–Fed Rat, V. R. Preedy and T. Peters . . 235

Glucose 6-Phosphate Plays a Central Role in the Regulation of Glycogen Synthesis in a Glycogen-Storing Liver Cell Line, D. Mayer and I. Letsch 243

Acute Phase Response to Recombinant Interleukin-6 and Macrophage- and Fibroblast-derived Crude Cytokine Preparations in Primary Cultures of Mouse Hepatocytes, H. Rokita, M. Mackiewicz and A. Koj 257

Metabolic Effects of Acetaminophen. Studies in the Isolated Perfused Rat Liver, A. M. Itinose, M. L. D. Sakuno and A. Bracht 263

Cytochrome P450 in Highly Purified Suspension of Nonparenchymal Liver Cells, K. Rich and A. Lodola 275

A Comparison of the Effects of Various Stimulatory Agents on t-PA Secretion by Normal and Malignant Cell Lines, J. Clarke, B. Griffiths, J. Melling, R. Ling, T. Atkinson and A. Electricwala 283

Synthesis of Proteoglycans and Hyaluronic Acid by Long-Term Cultures of Testicular Cells from Immature and Pubertal Rats, J. P. Rodriguez and J. J. Minguell 293

Evidence for a Differential Distribution of Reducing Equivalents from NADPH in Cartilage, A. M. Nahir, F. Boussidan and D. Shomrat 301
